

Project I: Final Presentation Guidelines

Each group will give an oral presentation on 17 October of their PDA project. Presentations will be a maximum of 20 minutes, followed by 10 minutes of questions. These time limits will be strictly enforced. The first presentation will begin at 3:35. As we will have guest evaluators please be prompt.

Presentation Hints

- Address your problem statement
- Document your process as well as your final result
- Interface Topics
 - present operating system from user's point of view
 - outline key features
 - outline task functionality, but don't detail complete operation sequence
 - avoid excessive detail
- Hardware Topics
 - show how form is appropriate to user context
 - show how hardware enhances interaction with OS/software
 - don't detail cost or manufacturing issues

Deliverables

- Each Group
 - hard model and a box in which to carry it
 - software documentation in a booklet/binder format (reduce any large artwork)
 - a one page statement of your design problem & solution
 - invoice for time and materials along with copy of original budget
- Each Individual
 - a design log which includes all individual work relevant to the project
 - information must be bound or organized in some fashion
 - don't waste your (and our) time filling in pages at the last minute
 - evaluation of the group process
